- Referanslara alıntı yapılması ve paylaşılması

Mendeley nedir?

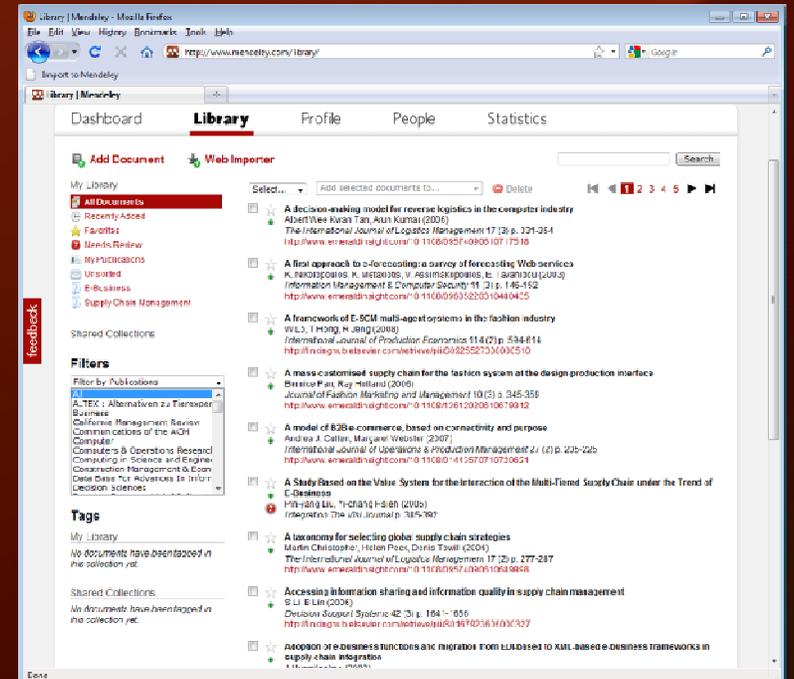

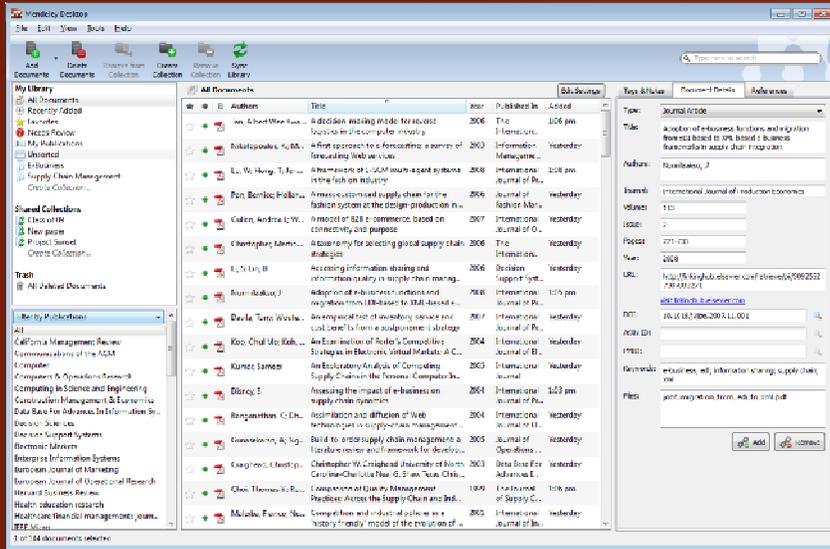

Londra merkezli Mendeley, aşağıdaki kurumlarda görevli 15 araştırmacı ve yazılım geliştiriciden oluşmaktadır.

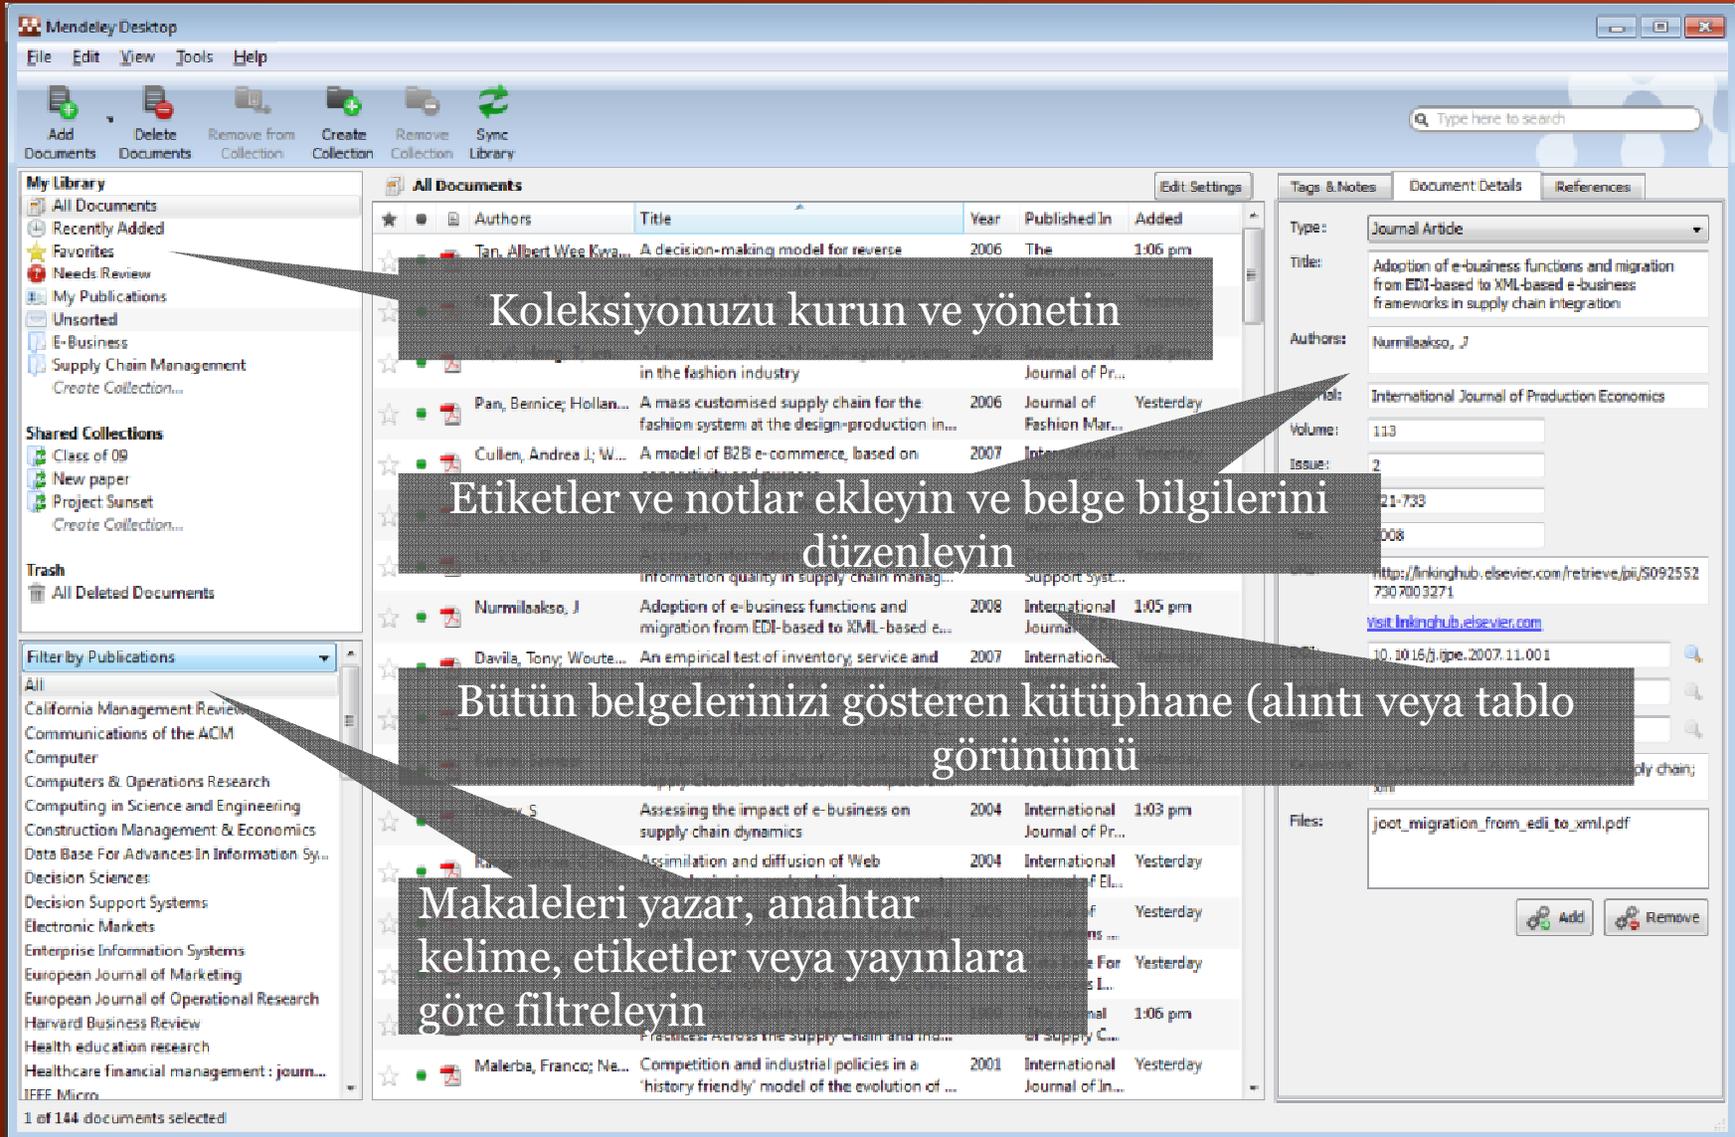

Kurucu ortakları ve eski yöneticileri tarafından desteklenmektedir.

Mendeley makalelerinizin yönetmek, paylaşmak, okumak, notlar almak ve alıntı yapmak için kullanabileceğiniz ücretsiz yazılımdır.

Aynı zamanda makalelerinizi çevrimiçi yönetebileceğiniz, yeni trendleri ve istatistikleri keşfedebileceğiniz ve benzer konularda çalışan araştırmacılarla iletişim kurabileceğiniz bir araştırma ağıdır.

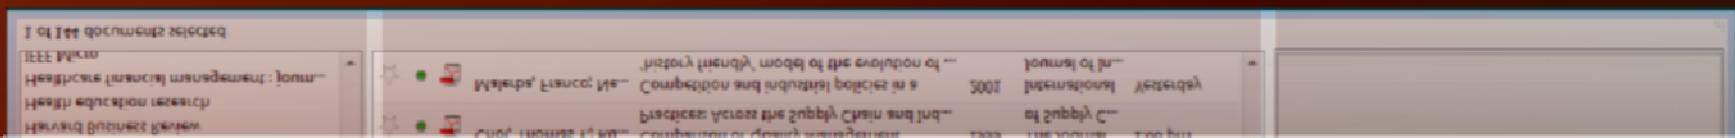

The screenshot shows the Mendeley Desktop application window. The interface includes a menu bar (File, Edit, View, Tools, Help), a toolbar with icons for Add, Delete, Remove from Collection, Create Collection, Remove Collection, and Sync Library. On the left, there is a 'My Library' sidebar with folders like 'All Documents', 'Recently Added', 'Favorites', 'Needs Review', 'My Publications', 'Unsorted', 'E-Business', and 'Supply Chain Management'. Below this is a 'Shared Collections' section and a 'Trash' section. A 'Filter by Publications' dropdown is also visible. The main area displays a list of documents with columns for Authors, Title, Year, Published In, and Added. On the right, there is a 'Tags & Notes' panel, a 'Document Details' panel, and a 'References' panel. The document details panel shows information for a 'Journal Article' titled 'Adoption of e-business functions and migration from EDI-based to XML-based e-business frameworks in supply chain integration' by Nurmilaakso, J. The document details panel also shows the volume (113), issue (2), and page numbers (21-739). The document details panel also shows the URL 'https://linkinghub.elsevier.com/retrieve/pii/S0925527307003271' and the 'visit linkinghub.elsevier.com' link. The document details panel also shows the DOI '10.1016/j.jipe.2007.11.001'. The document details panel also shows the file name 'joot\_migration\_from\_edi\_to\_xml.pdf' and 'Add' and 'Remove' buttons.

**Koleksiyonuzu kurun ve yönetin**

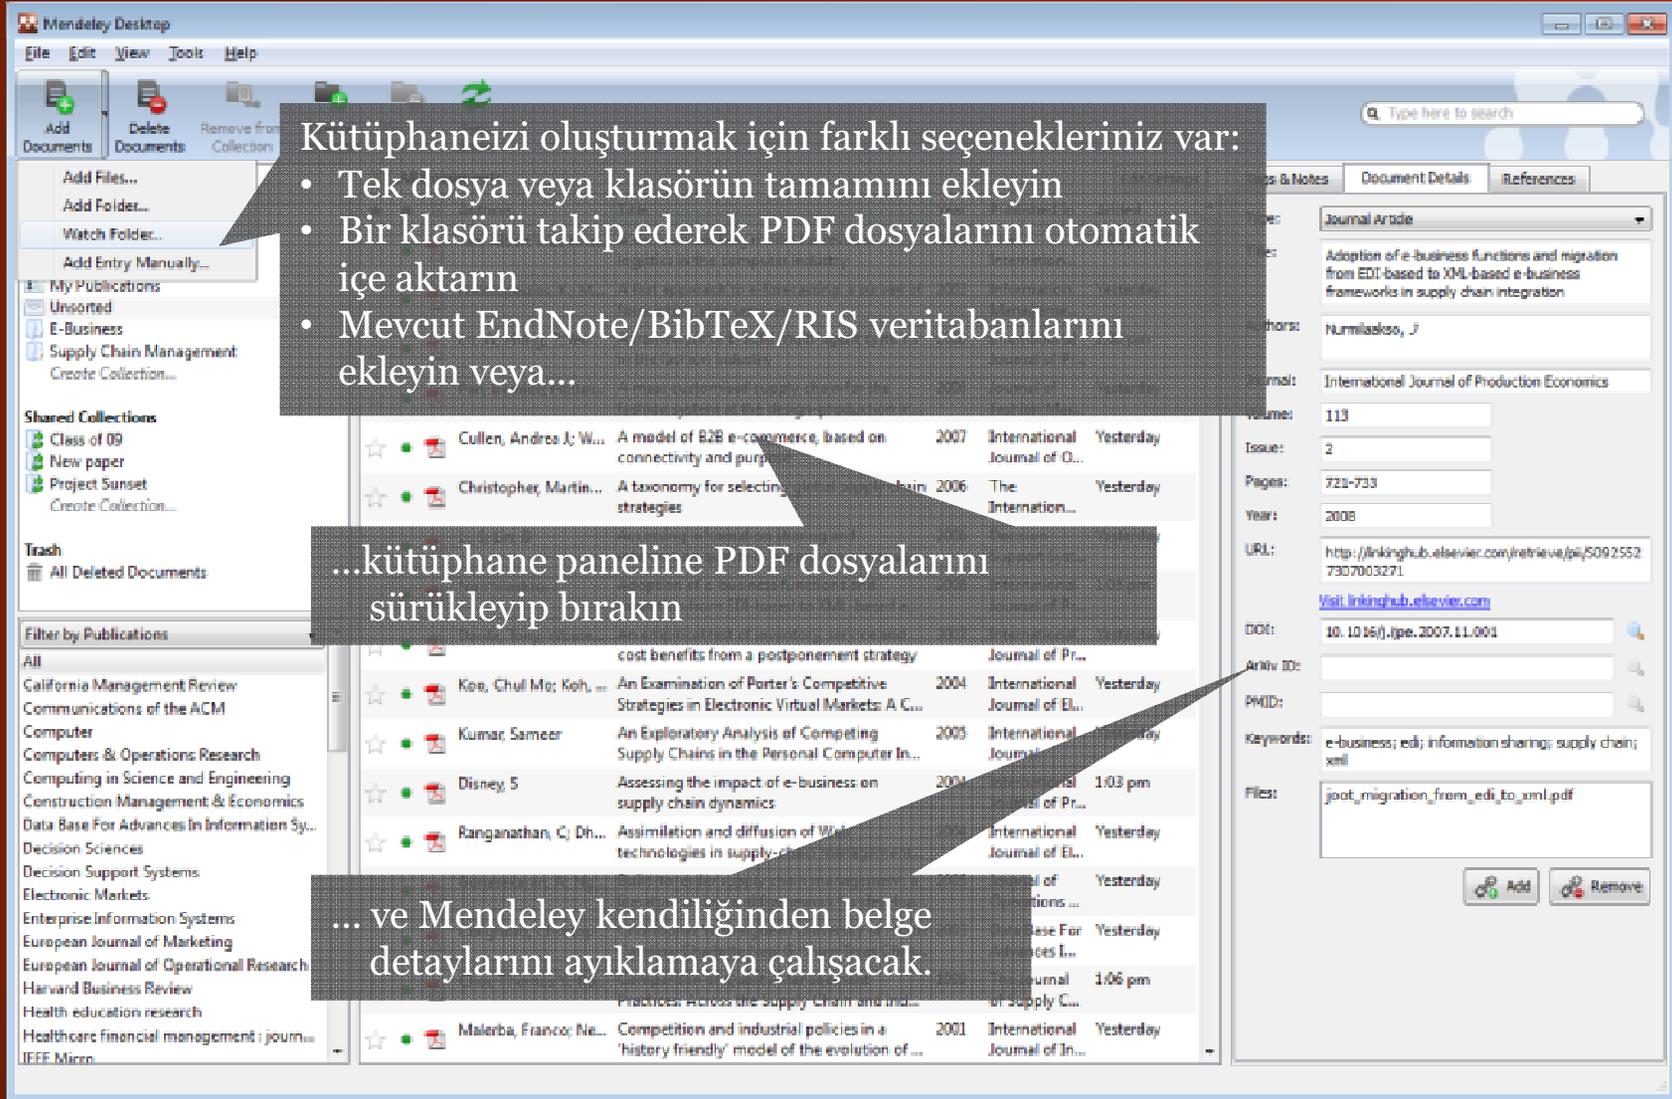

**Etiketler ve notlar ekleyin ve belge bilgilerini düzenleyin**

**Bütün belgelerinizi gösteren kütüphane (alıntı veya tablo görünümü)**

**Makaleleri yazar, anahtar kelime, etiketler veya yayınlara göre filtreleyin**

Kütüphanenizi oluřturma

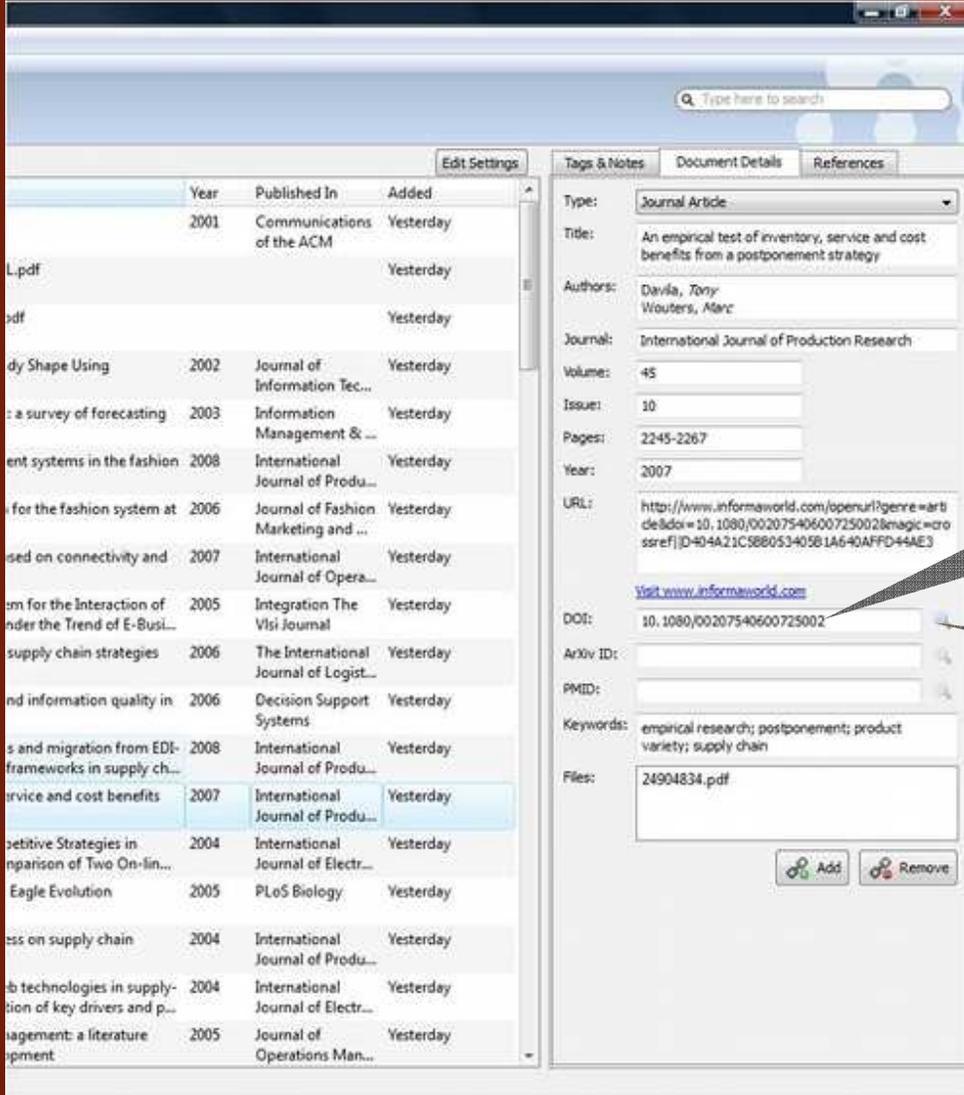

**Kütüphaneyi oluşturmak için farklı seçenekleriniz var:**

- Tek dosya veya klasörün tamamını ekleyin
- Bir klasörü takip ederek PDF dosyalarını otomatik içe aktarın
- Mevcut EndNote/BibTeX/RIS veritabanlarını ekleyin veya...

**...kütüphane paneline PDF dosyalarını sürükleyip bırakın**

**... ve Mendeley kendiliğinden belge detaylarını ayıklamaya çalışacak.**

The screenshot shows the Mendeley Desktop application window. The main area displays a list of publications with columns for author, title, year, journal, and date added. The right-hand pane shows the details of a selected document, including its title, authors, journal name, volume, issue, pages, year, and URL. The interface includes a menu bar, a toolbar, and a sidebar with various options like 'Add Documents', 'Delete Documents', and 'My Publications'.

The screenshot shows the Mendeley Desktop interface. On the left, there is a list of documents with columns for Year, Published In, and Added. The selected document is 'An empirical test of inventory, service and cost benefits from a postponement strategy' by Davila, Tony and Wouters, Alan, published in the International Journal of Production Research in 2007. The right pane shows the document details, including the title, authors, journal name, volume, issue, pages, year, and URL. The DOI is 10.1080/00207540600725002. The interface also includes tabs for Tags & Notes, Document Details, and References, and buttons for Add and Remove.

Belgelerinizin ve referanslarınızın yönetimi

The screenshot shows the Mendeley Desktop application window. The interface includes a menu bar (File, Edit, View, Tools, Help), a toolbar with icons for adding, deleting, and syncing documents, and a search bar. The main area is divided into a left sidebar with 'My Library' and 'Shared Collections' sections, and a central pane displaying a list of documents. The 'My Library' section includes 'All Documents', 'Recently Added', 'Favorites', 'Needs Review', 'My Publications', 'Unsorted', 'E-Business', and 'Supply Chain Management'. The 'Shared Collections' section includes 'Class of 09', 'New paper', and 'Project Sunset'. The central pane shows a list of documents with columns for 'Authors', 'Title', 'Year', and 'Pub'. The 'Filter by Publications' dropdown menu is open, showing a list of publication titles. Four callout boxes with white text on a dark background point to specific features in the interface:

- PDF dosyalarını dahil okuyucuda açın** (Include PDF files in the reader)
- Sevdiğiniz makaleleri işaretleyin** (Mark the articles you like)
- Belgeler okunmamış/okunmuş olarak işaretleyin** (Mark documents as read/not read)
- Yazar, etiket, yayın veya anahtar kelimelerle filtreleyin** (Filter by author, tag, publication, or keywords)

This image is a blurred, overlapping view of the Mendeley Desktop interface, showing the same document list and sidebar as the main image. It appears to be a secondary instance or a different view of the same software, rendered with a semi-transparent effect.

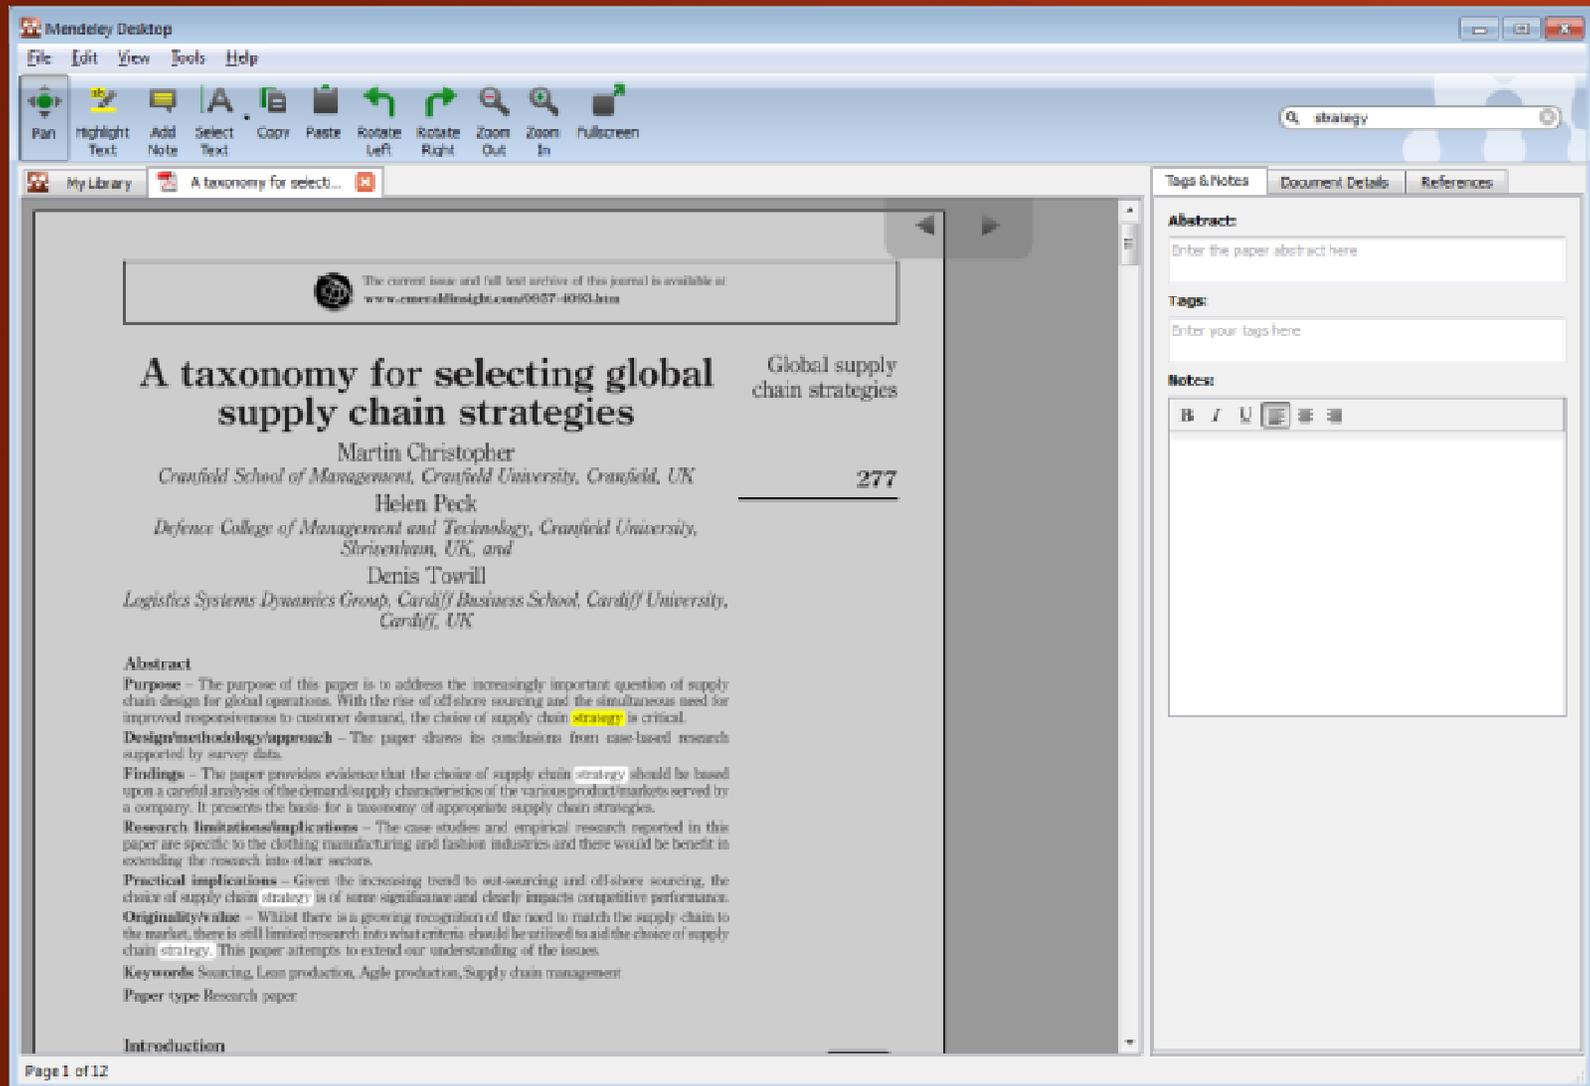

The screenshot displays the Mendeley Desktop application window. At the top, there is a menu bar (File, Edit, View, Tools, Help) and a toolbar with icons for adding, deleting, and syncing documents. A search bar in the top right corner contains the text "e-business".

The main interface is divided into several sections:

- My Library:** A sidebar on the left containing folders like "All Documents", "Recently Added", "Favorites", "Needs Review", "My Publications", "Unsorted", "E-Business", and "Supply Chain Management". It also includes "Shared Collections" and a "Trash" section.
- Filter by Publications:** A list of publication categories such as "California Management Review", "Communications of the ACM", "Computer", "Computers & Operations Research", etc.
- All Documents:** The central pane shows search results for "e-business". The first result is highlighted: "Accessing information sharing and information quality in supply chain management" by S Li; B Lin (2006), published in Decision Support Systems.
- Document Details:** A pane on the right provides metadata for the selected document, including Type (Journal Article), Title, Authors (Choi, Thomas I; Rungtusanatham, Anur), Journal (The Journal of Supply Chain Management), Volume (35), Issue (1), Pages (20-27), Year (1999), and DOI (10.1111/j.1745-493x.1999.tb00052.x).

At the bottom of the window, it indicates "1 of 144 documents selected".

The screenshot shows the Mendeley Desktop application window. The main pane displays a PDF document titled "A taxonomy for selecting global supply chain strategies" by Martin Christopher, Helen Peck, and Denis Towill. The document is from the journal "Global supply chain strategies" and is page 277. The document content includes an abstract, purpose, design/methodology/approach, findings, research limitations/implications, practical implications, originality/value, and keywords. The keywords are: Sourcing, Lean production, Agile production, Supply chain management. The paper type is Research paper.

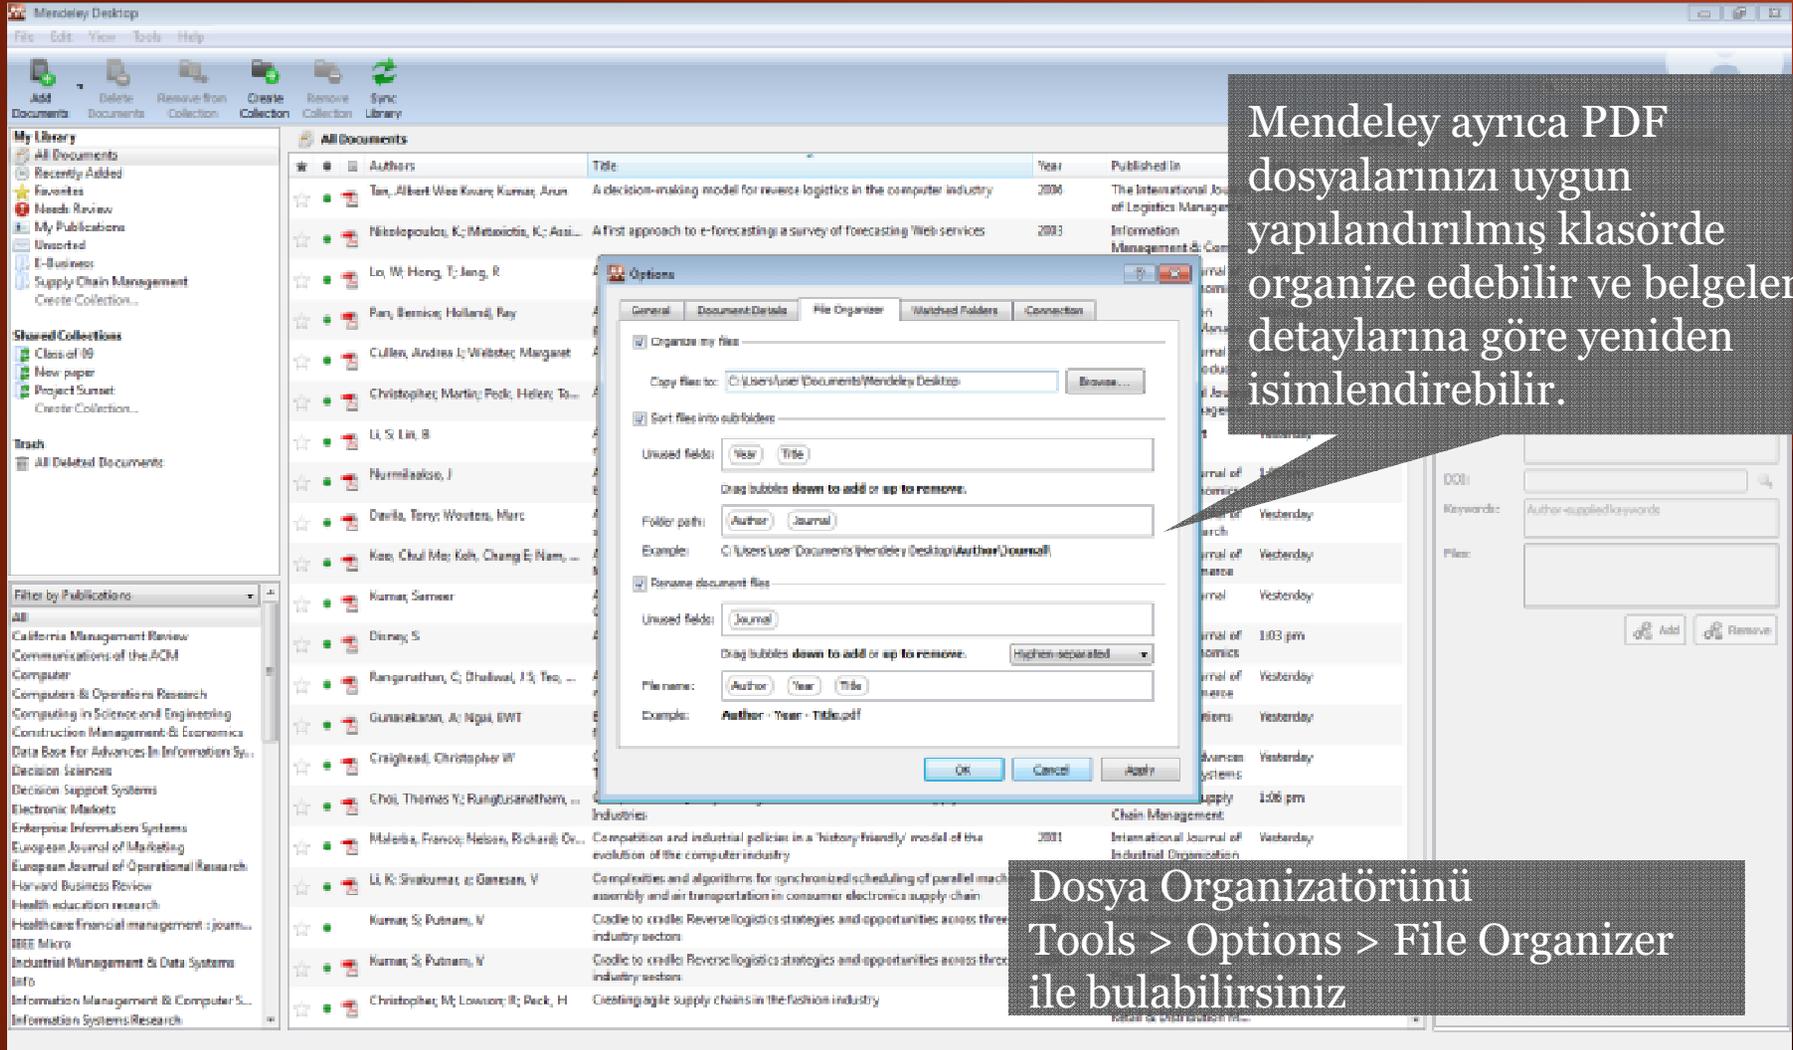

The right-hand pane shows the search results for the term "strategy". The search results are as follows:

Section	Text
Abstract:	Enter the paper abstract here
Tags:	Enter your tags here
Notes:	

The search results are displayed in a table format with columns for the section name and the corresponding text. The search term "strategy" is highlighted in yellow in the original image.

The screenshot shows the Mendeley Desktop application window. The main pane displays a PDF document titled "A taxonomy for selecting global supply chain strategies" by Martin Christopher, Helen Peck, and Denis Towill. The document is from the Emerald journal, "The International Journal of English Management", Vol. 17 No. 3, 2008, pp. 277-282. The page number "277" is visible in the top right corner of the document. The text in the document is partially highlighted in yellow. A sidebar on the right contains a search bar and tabs for "Tags & Notes", "Document Details", and "References". Under the "Tags & Notes" tab, there are sections for "Abstract", "Tags", "Notes", and "Annotations". A note is visible in the "Notes" section, dated "07.07.2009 14:04:22", with the text "This is a note". The "Annotations" section shows a note titled "You" with the same date and text. The bottom left corner of the window indicates "Page 1 of 12".

This block shows a blurred, mirrored view of the Mendeley Desktop application interface, identical to the one above but with a dark, semi-transparent overlay. It shows the same document, sidebar, and notes, serving as a visual reference or a secondary view of the same content.

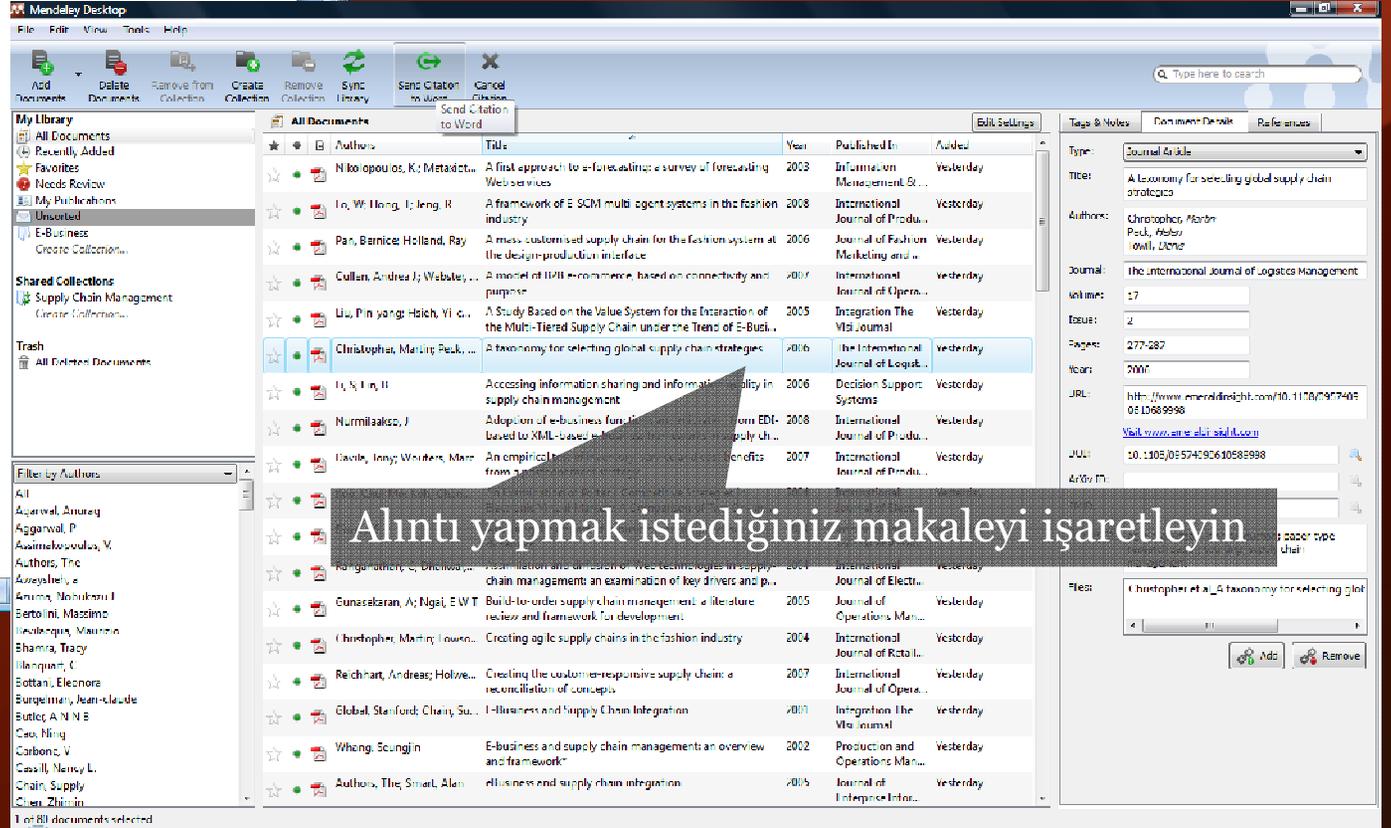

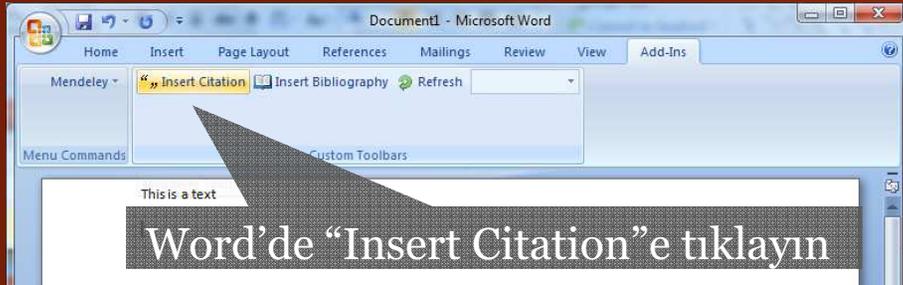

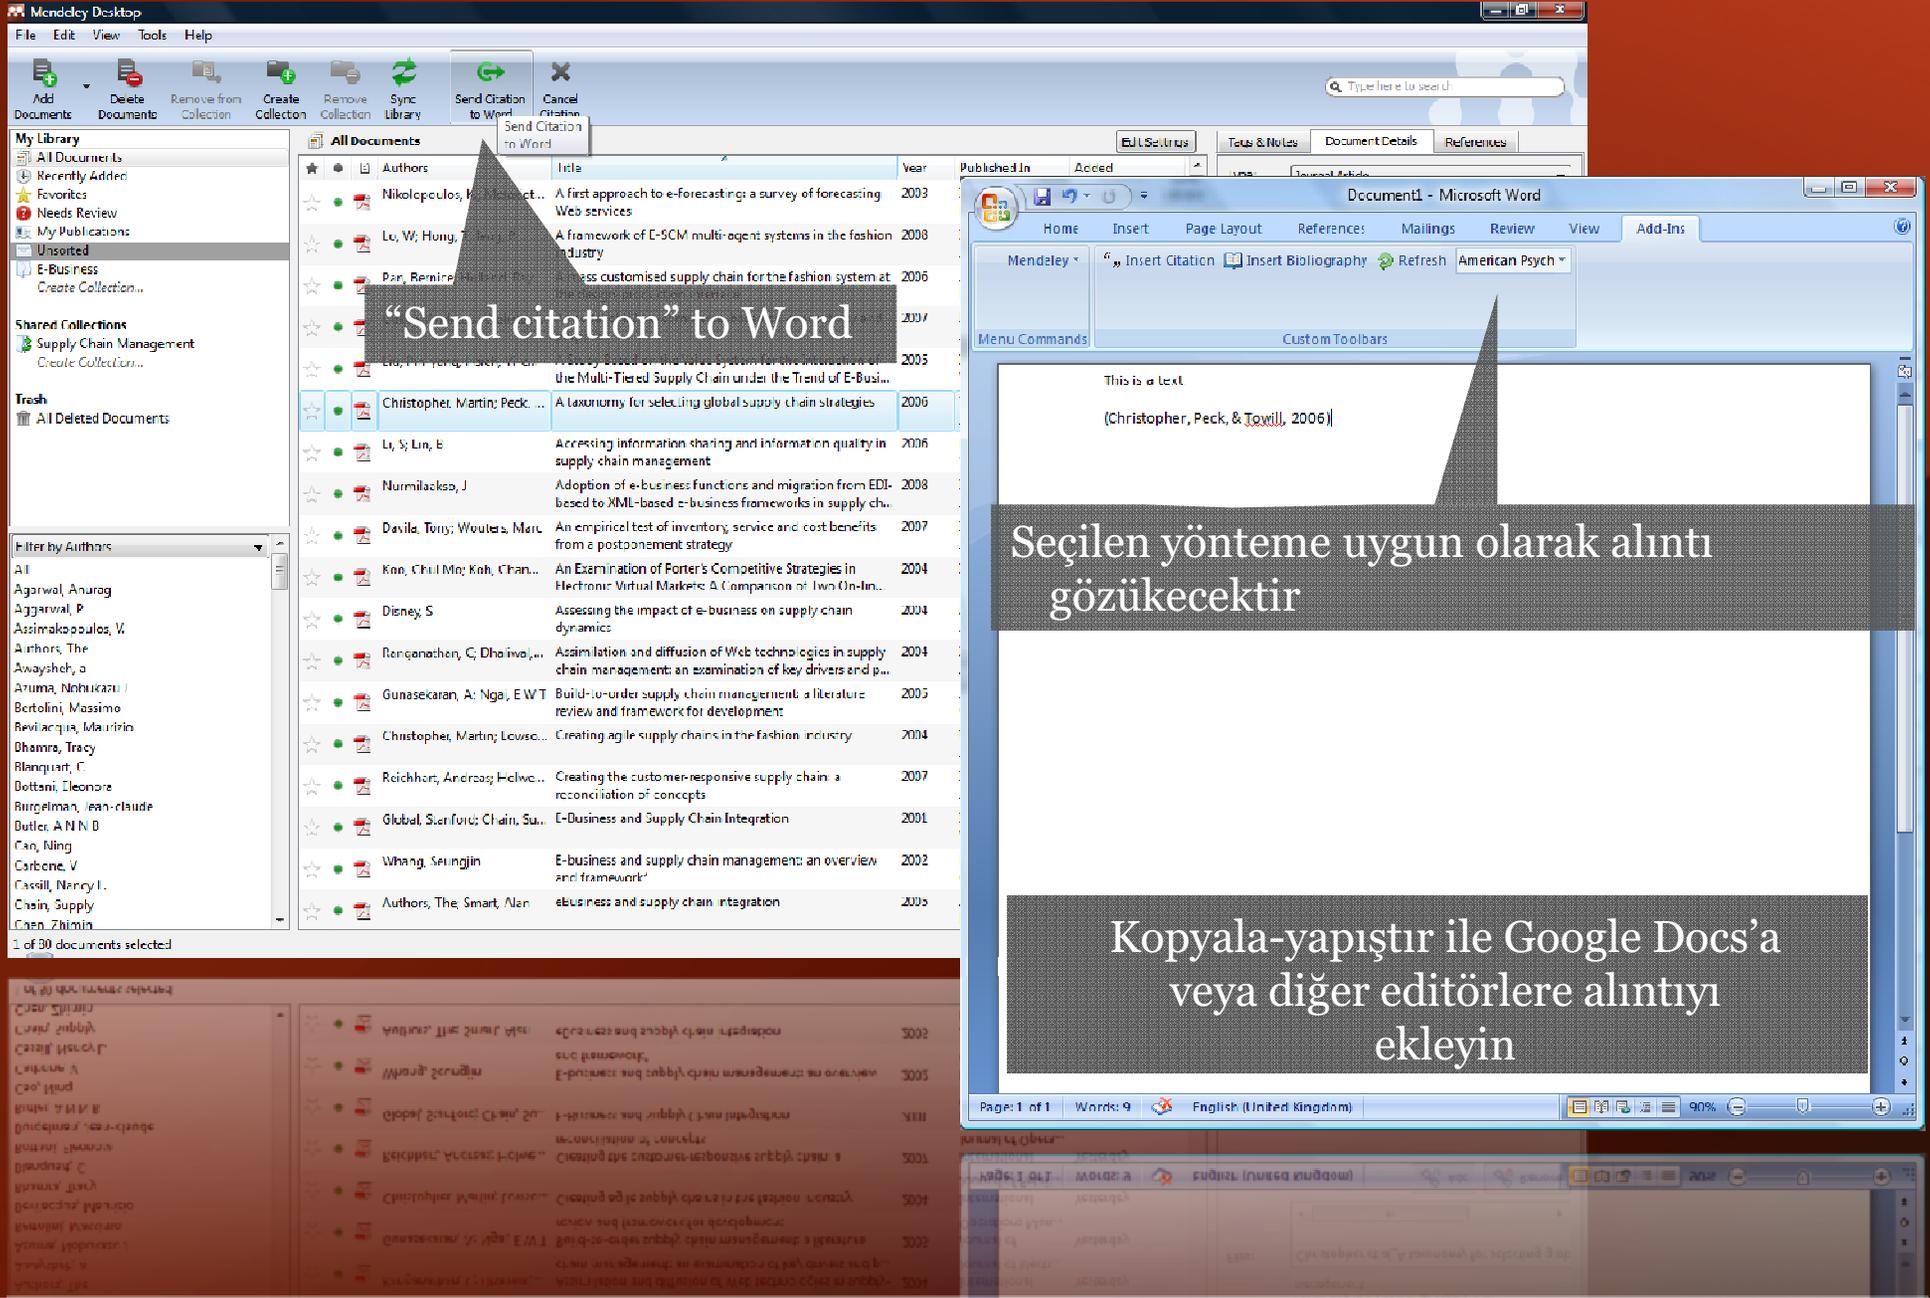

Mendeley ayrıca PDF dosyalarınızı uygun yapılandırılmış klasörde organize edebilir ve belgeleri detaylarına göre yeniden isimlendirebilir.

Alıntı yapmak ve referansları paylaşmak

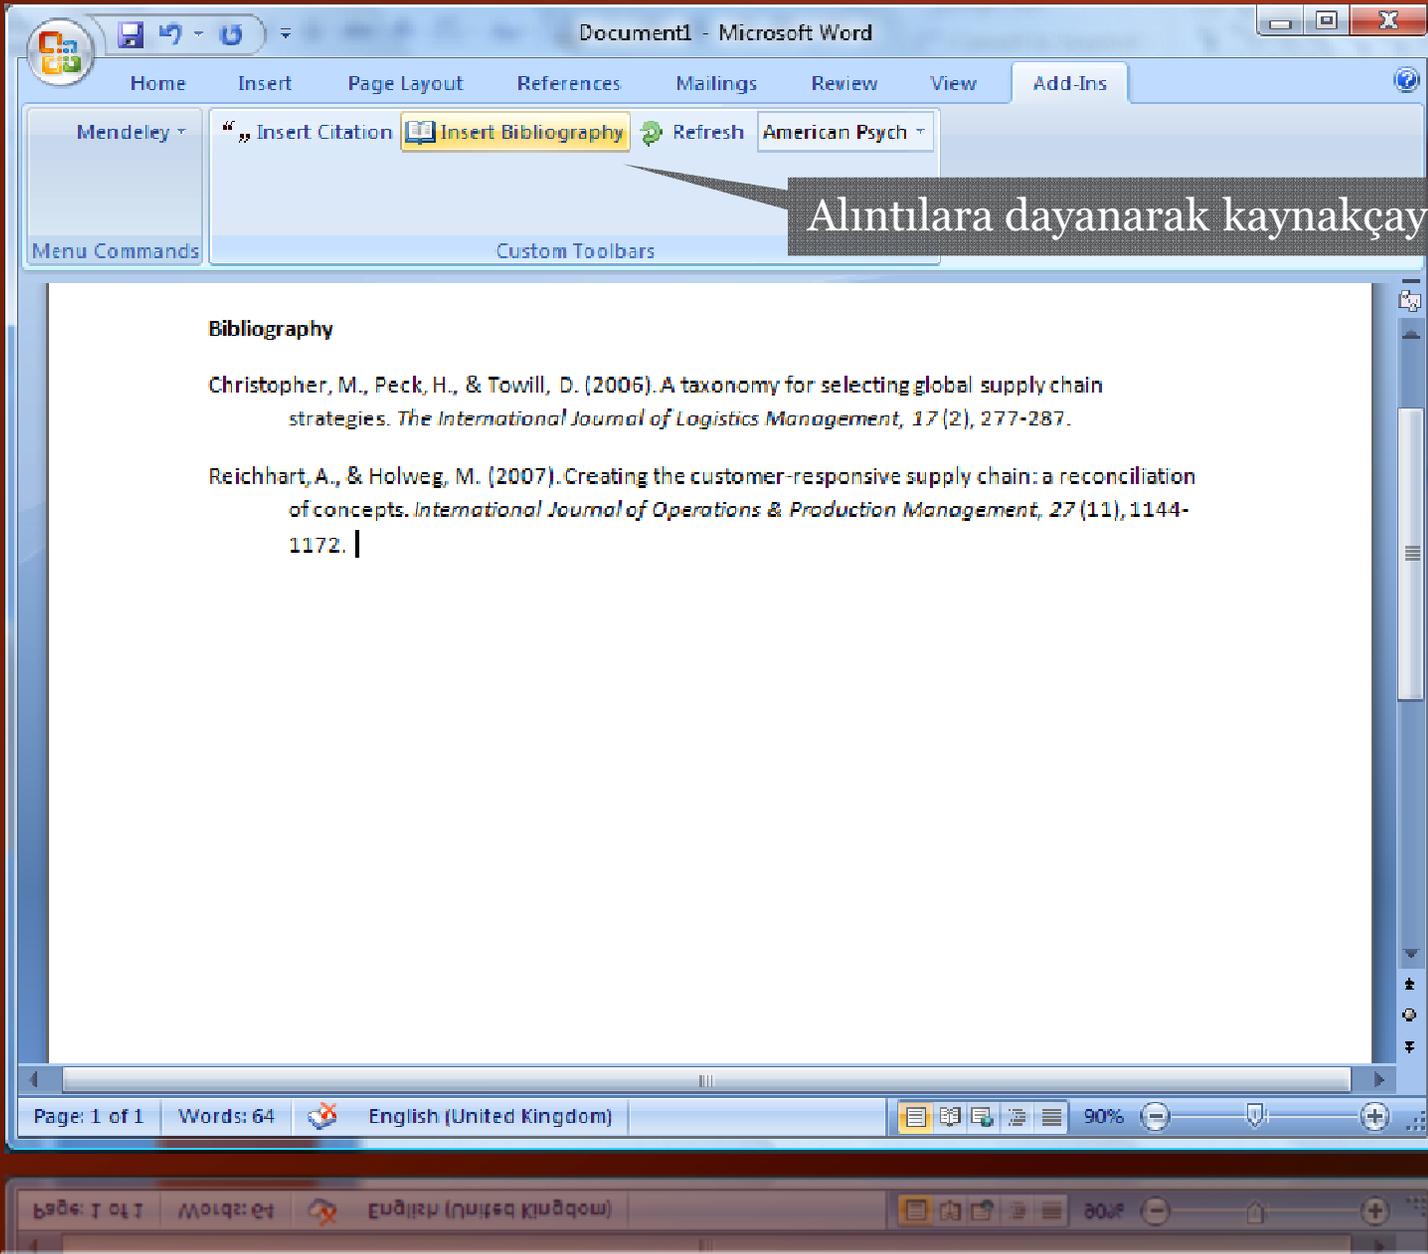

The image shows a screenshot of the Mendeley Desktop application and a Microsoft Word document. The Mendeley Desktop window displays a list of documents with columns for Authors, Title, and Year. A callout box points to the 'Send Citation to Word' button in the Mendeley Desktop toolbar. The Microsoft Word window shows the 'References' tab with the 'Mendeley' menu open, highlighting the 'Send Citation to Word' option. The Word document contains a citation: (Christopher, Peck, & Towill, 2006). Below the citation, there are two text boxes with instructions in Turkish.

**“Send citation” to Word**

Seçilen yöntemeye uygun olarak alıntı gözükecektir

Kopyala-yapıştır ile Google Docs'a veya diğer editörlere alıntıyı ekleyin

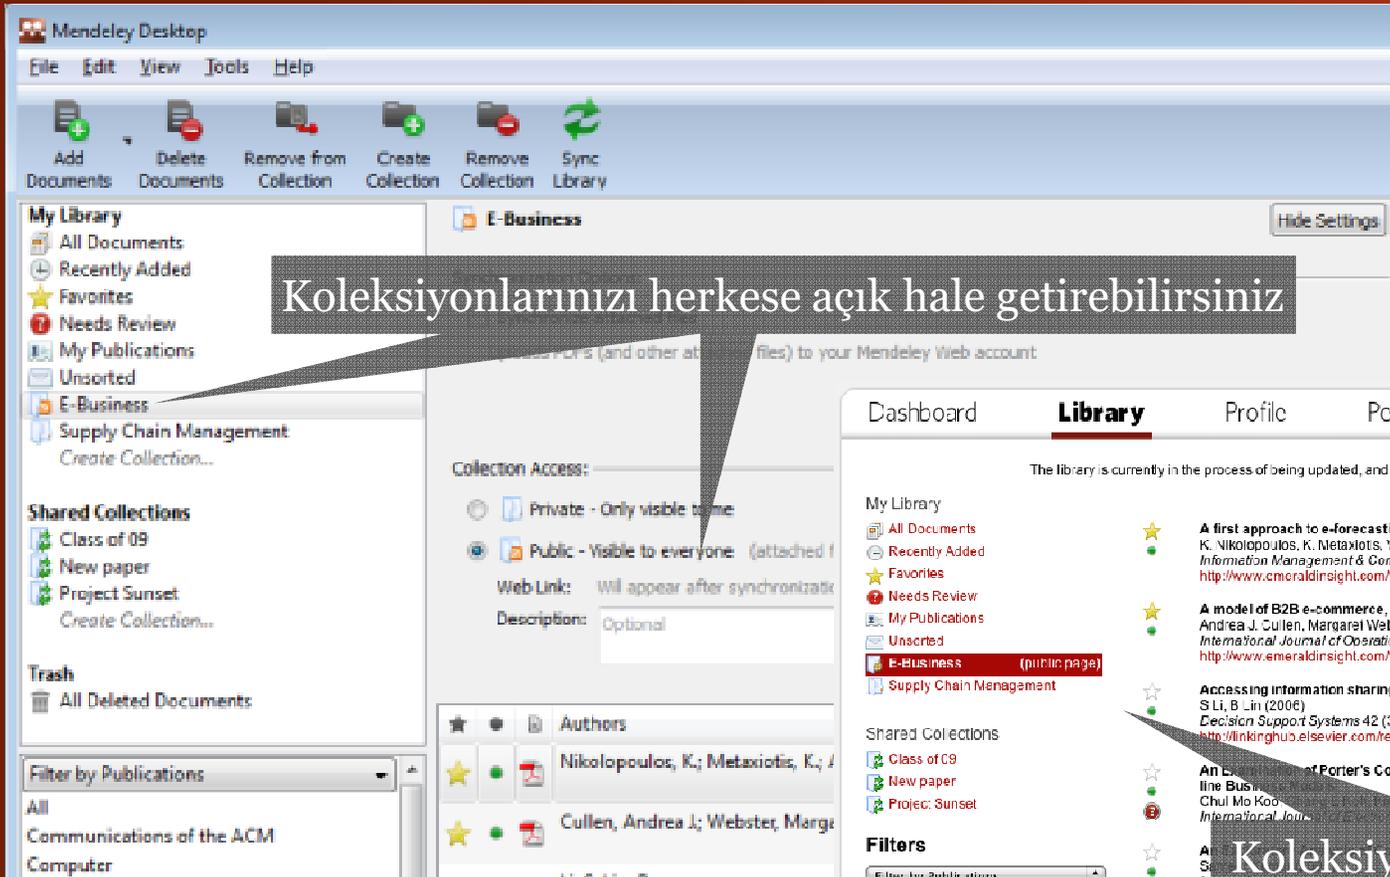

The screenshot displays the Microsoft Word interface with the Mendeley Add-Ins ribbon active. The ribbon includes buttons for "Insert Citation", "Insert Bibliography", "Refresh", and "American Psych". A callout box points to the "Insert Bibliography" button with the text "Alıntılara dayanarak kaynakçayı oluřturun". The main document area shows a bibliography with two entries:

**Bibliography**

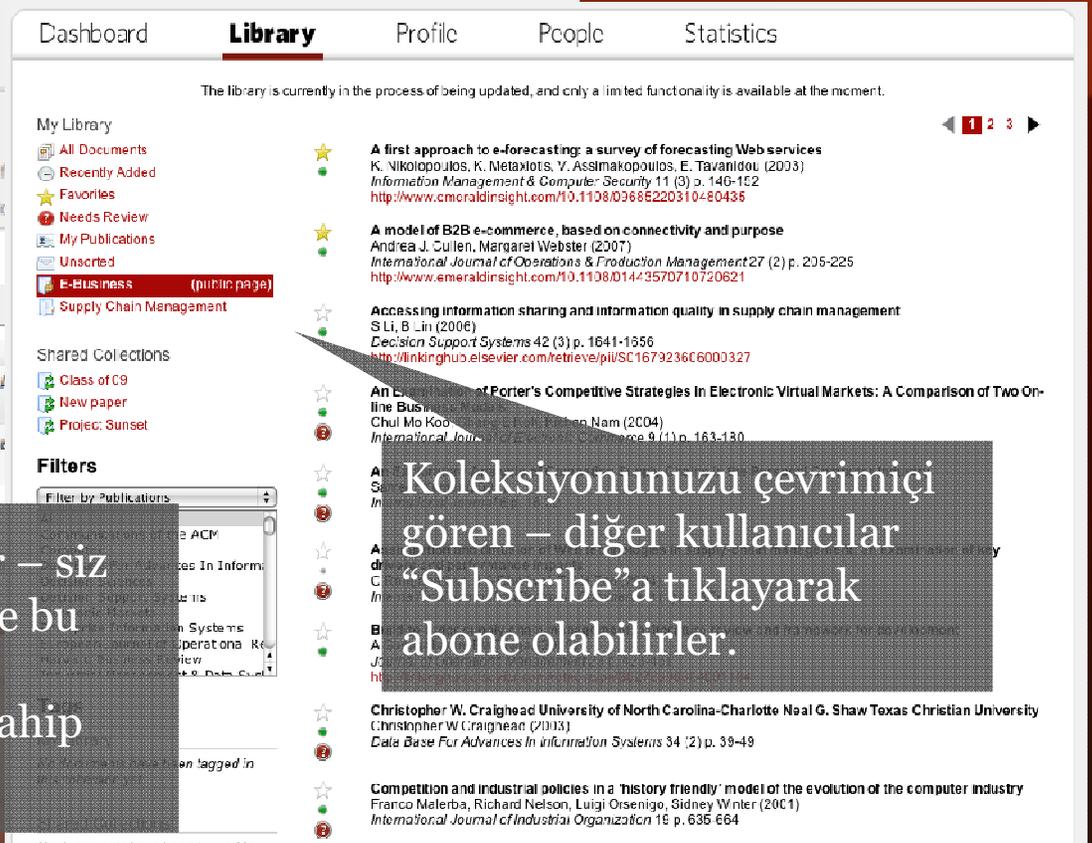

Christopher, M., Peck, H., & Towill, D. (2006). A taxonomy for selecting global supply chain strategies. *The International Journal of Logistics Management*, 17 (2), 277-287.

Reichhart, A., & Holweg, M. (2007). Creating the customer-responsive supply chain: a reconciliation of concepts. *International Journal of Operations & Production Management*, 27 (11), 1144-1172. |

The status bar at the bottom indicates "Page: 1 of 1", "Words: 64", "English (United Kingdom)", and "90%".

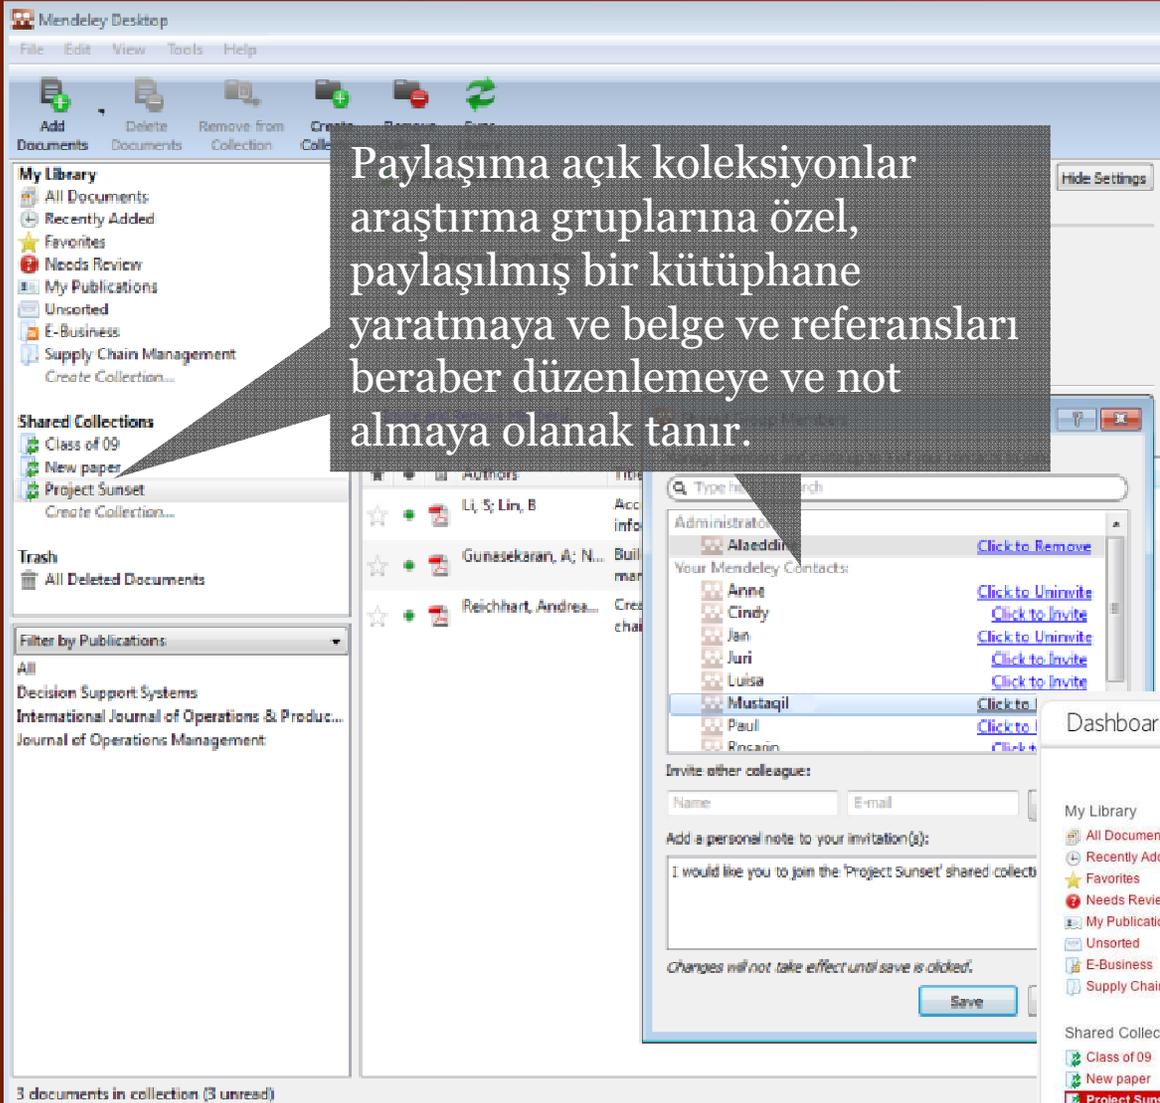

Koleksiyonlarınızı herkese açık hale getirebilirsiniz

Koleksiyonunuzu çevrimiçi gören – diğer kullanıcılar “Subscribe” a tıklayarak abone olabilirler.

Açık koleksiyonlar okuma listeleri gibidir – siz koleksiyona referanslar ekleyebilirsiniz ve bu koleksiyona abone olmuş kullanıcılar da Mendeley hesaplarında bu referanslara sahip olacaklar. PDF dosyaları eklenmez.

Paylaşımaya açık koleksiyonlar araştırma gruplarına özel, paylaşılmış bir kütüphane yaratmaya ve belge ve referansları beraber düzenlemeye ve not almaya olanak tanır.

**Biographical Information**

Jason Hoyt is the Research Director at Mendeley. He holds a PhD in Genetics from Stanford University where he was awarded the Ruth L. Kirschstein NIH predoctoral fellowship from 2002-2007.

Prior to joining Mendeley, he worked under Michele Calos studying translational research into human gene therapy. He developed new methods for non-viral gene delivery into mouse hematopoietic cells using the phiC31 integrase. Additionally, he used directed evolution to evolve phiC31, such that integration would occur at single location in the human genome, thus reducing potential side-effects. Also amongst his direct research advisors at Stanford were Gavin Sherlock, Anne Brunet, and Andrew Fire: 2006 Nobel Laureate in Medicine or Physiology.

While a graduate student at Stanford, Jason saw the need and opportunity to improve collaborative research through modern Internet technologies. This resulted in founding Ologeez.org (peer-review literature search.

**Abstract**

Many scientists now manage the bulk of their bibliographic information electronically, thereby organizing their publications and creating material from digital libraries. However, a library has been conceived as "frozen in cold storage," and unfortunately many digital libraries can be cold, impersonal, isolated, and inaccessible places. In this Review, we discuss the current chilly state of digital libraries for the computational biologist, including PubMed, IEEE Xplore, the ACM digital library, ISI Web of Knowledge, Scopus, CrossRef, arXiv, DDBLP, and Google Scholar. We illustrate the current process of using these libraries with a typical workflow, and highlight problems with managing data and metadata using URIs. We then examine a range of new applications such as Zotero, Mendeley, Mendeley Papers, MyNCB, CiteULike, Connotea, and HathiTrust that exploit the Web to make these digital libraries more personal, socially integrated, and accessible places. We conclude with how these applications may begin to help achieve a digital defrost, and discuss some of the issues that will help or hinder this, in terms of making libraries on the Web warmer places in the future, becoming resources that are considerably more useful to both humans and machines.
